*building magazine for professionals*

**Specification:**

The monthly STŘECHY, FASÁDY, IZOLACE is a specialized building magazine which is particularly meant for professionals in the field of construction. It deals with the problems of skin.

In the magazine STŘECHY, FASÁDY, IZOLACE you will find works of realization, production and business companies or occupational trades. It presents new materials, technologies, systems and their application in practice, information from the educational system, views of experts, novelties from exhibitions etc. Moreover, a part of each edition (supplement) is regularly devoted to a specific focus.

The technical paper STŘECHY, FASÁDY, IZOLACE has been already published in the Czech and Slovak republics since 1994. Its quality is guaranteed by cooperating experts and members of the advisory board, out of which there can be mentioned namely Doc. Ing. Zdeněk Kutnar, CSc., Doc. Ing. Antonín Fajkoš, Prof. Ing. Jozef Oláh PhD.

**Distribution:**

With respect to its specialization the magazine Střechy, Fasády, Izolace is internationally distributed from 70 percent to the above mentioned experts. The rest of the edition is easy to get at specialized shops and technical fairs, congresses, seminars and trainings in the Czech and Slovak Republics.

**Edition:** 10.000 copies
